Re: Roy E. Henderson

KNUZ (AM), Bellville, Texas

Facility Identification Number: 48653

Special Temporary Authority

Dear Mr. Graham:

This is in reference to the request filed September 4, 2009, on behalf of Roy E. Henderson ("REH"). REH requests further extension of the special temporary authority ("STA") granted on August 27, 2008, to operate Station KNUZ with temporary facilities.\(^1\) In support of the request, REH states that he has filed an application for assignment of license which remains pending and that, if the application is granted, the new licensee will make the decision on where to relocate the station.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has been prevented from restoring licensed operation due to causes beyond its control and has taken all possible steps to expeditiously resolve the problem. Thus, extension of STA is warranted.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KNUZ may operate with the following facilities:

¹ KNUZ is licensed for operation on 1090 kHz with 0.25 kilowatt, daytime hours only, employing a nondirectional antenna (ND-D-D).

Geographic coordinates:

29° 57′ 52″ N, 96° 16′ 49″ W (NAD 1927)

Frequency:

1090 KHz

Hours of operation:

Daytime only

Operating power:

0.2 kilowatt

Antenna type

Wire, Inverted "V" configuration

Antenna efficiency

200 mV/m/km/kW

Overall height

15.2 meters

It will be necessary to further reduce power or cease operation if complaints of interference are received. REH must notify the Commission when licensed operation is restored.² REH must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on March 10, 2010.

Sincerely,

Charles N. Miller, Engineer

Audio Division Media Bureau

cc: Roy E. Henderson
